

## **MOTIVATIONAL LETTER**

With this letter, I would like to express my interest in applying for “Summer 2022 Technology Internship” at MetroStar.

I am currently a third-year computer science student, who's passionate about everything related to technology, especially Data Science and Software Engineering. I have decided to apply for this internship because I can see clearly how it aligns with my interests, I also think that it will enrich my future studies and help me grow as a woman in technology. Moreover, I consider this internship as the perfect opportunity for me to expand my network, share my knowledge with others, have an influence on the team, improve my English and have fun.

I am pretty confident that my experience in MetroStar would be extremely exciting, fun, and valuable for both my internship and overall general development.

Thank you for considering my application. I look forward to your positive response.

Yours,  
Dania.
