EDUCATION

École Nationale Supérieure d'Informatique (ESI ex- INI)
Computer Science Degree ☒

10/2019 - Present   *Algiers, Algeria*

Relevant courses

- Object oriented programming
- Data Structures and Algorithms
- Probabilities & Statistics
- Calculus & Algebra
- Databases

CodeLabsAcademy
Intensive Bootcamp in Data Science

11/2021 - Present   *London, England*

Units

- Python Programing
- Machine Learning
- Deep Learning
- Projects
- Data Exploration
- Data preprocessing
- Computer Vision

SCHOOL PROJECTS

Port-Gest
École Nationale Supérieure d'Informatique

*04/2021 - 08/2021*   *Algiers, Algeria*

Developing a desktop application for a company

Features

- Visualizing the list of clients, products, files etc
- Add, edit, remove or delete a client, a product, a file etc.
- Well designed dashboard with relevant KPIs.
- Saving files (bills..) into the computer in .pdf or .txt format.

Used technologies : PyQt5, PySide2, MySQL

SKILLS

Maths   Python   Seaborn   Power BI

Matplotlib   Pandas   Tensorflow   SQL

Numpy   Statistics   Git and Github

ORGANIZATIONS

Club Scientifique de l'ESI (09/2019 - Present)
CSE club is one of the largest scientific clubs in Algeria. Working since 2008, our main goal is to offer original and innovative content throughout our hackathons, workshops, training and social media.

CERTIFICATS

Introduction to Data and Data Science
 (10/2021 - 11/2021) ☒

Data Visualization (09/2020 - 10/2020) ☒

Introduction to Deep Learning (01/2022 - 01/2022) ☒

Artificial Intelligence for Everyone
 (08/2020 - 09/2020) ☒

Machine Learning for All (07/2020 - 08/2020) ☒

LANGUES

Arabe
Native or Bilingual Proficiency

Anglais
Full Professional Proficiency

Français
Professional Working Proficiency

INTERESTS

Psychology   Neuroscience   Reading
